### **WORK EXPERIENCE: CONTINUED**

#### **REAL ESTATE ARTS**

New York, NY  
February 2011 - July 2011

Designer at Real Estate Arts, a full service branding/design agency specializing in the real estate industry. Worked with creative director Paul Dunn and design director Irasema Rivera on the branding team to create identities, logos, book cover/interiors, and branding concept pitch presentations. Clients came to us to put "the face" to their buildings, malls, retail space, and other properties. Large budget projects demanded fully realized branding concepts illustrated through many touch points; multiple logos, fully branded stationary, websites, advertisements, e-blasts, building signage, and promotional items. Lower budget projects required offering memorandums (property books sent to investors and buyers) where I created the "look and feel" of the cover and interiors.

#### **OUR SECRET AGENCY**

Davie, FL  
January 2008 - December 2010

Designer at a full service advertising agency that caters to clients in the Caribbean. Worked on design team with creative director, Stephen Chung. At OSA I did any of the below: art direction (for specific projects), design/layout, advertisement design, brand identity, corporate branding and implementation, advertisement campaign pitches, publication design, book design, collateral design, print production, illustration, story boarding, copy writing, promotion proposals, web graphics, and web banners. I also worked in production management; handling multiple projects, interacting with clients, vendors, and production houses to ensure projects were completed and received. I took on the responsibilities for the budget and advertising schedules for our major clients. Other responsibilities: Creating branded ads for multiple formats, sending files to press/web/radio, maintaining ad schedules with multiple publications/websites/radio stations, sending insertion orders, etc.)

#### **DOINK! DESIGN**

Coral Gables, FL  
October 2007

Freelance designer, worked with the creative director and design team at full service design firm. Working on a short term basis, I designed and laid out several publications that were in production.

#### **EULOGY RECORDINGS**

Fort Lauderdale, FL  
September 2005 - 2007

Designer for one of the premier music labels in the hardcore/metal music genre. Design experience advertising, catalogs, merchandise, promotional items, CD packaging, web/splash graphics, web banners, catalogs, maintaining and updating graphics for their main website, photographing, editing, and web optimizing their entire merchandise line.
